

Attachment B
**• Addendum to Customer Purchase Agreement -
Standard Terms and Conditions**

This addendum has been developed to identify significant issues that the Parties to this Agreement should recognize. The NYSERDA Eligible Installer is identified below as “Installer” and the Customer/Owner is identified below as “Customer”.

To be eligible for incentives from NYSERDA, all Customer Purchase Agreements must include a copy of this Addendum signed by both the Installer and the Customer.

Eligibility of Incentives:

NYSERDA Eligible Installers: Incentives are only available for the installation of new equipment and wind generation systems that have not been installed (partially or completely) prior to NYSERDA approval of a completed incentive application. In the case of a wind generation system, the Installer is required to be on-site for a minimum of pouring the foundation, assembling the wind generator and tower, and erecting the wind generator and tower. Customers are encouraged to contact NYSERDA at 1-866-6973732 if the Installer isn't on-site as required.

Incentives will not be provided directly to Customers purchasing or installing wind generation systems. Incentives are only available to a Installer that is an Eligible Installer under NYSERDA's Program. See, www.PowerNaturally.org. Incentives provided to a NYSERDA Eligible Installer must be passed on to Customer.

Review of System Design: After a completed incentive application is submitted to NYSERDA, NYSERDA will review the design of the wind generation system. When NYSERDA approves an incentive application, the incentive is contingent on strictly adhering to the proposed system design. Installers must receive approval from NYSERDA for any material modification of the proposed system or its components or the incentive may be disqualified.

Eligible Customers: Incentives are available to electricity distribution customers of: Central Hudson Gas & Electric Corporation, Consolidated Edison Company of New York, Inc., New York State Electric & Gas Corporation, Niagara Mohawk Power Corporation, Orange and Rockland Utilities, Inc. and Rochester Gas and Electric Corporation who contribute to the Renewable Portfolio Standard (sometimes referred to as 'RPS' on utility electric bills).

Warranty: Contractor/Eligible Installer offers a full warranty to the purchaser of the wind generation system installed under this Agreement for a period of 5-years after installation. This warranty covers all components of the system against breakdown or degradation in electrical output of more than ten percent from their original rated electrical output. This warranty covers

the full costs, including labor and repair or replacement of defective components or systems. If a battery back up is installed under this Agreement, Contractor/Eligible Installer offers a full warranty to the purchaser for the battery system for a period of 2-years after installation. This warranty covers the battery system against breakdown and covers the full costs, including labor and repair or replacement of the battery.

The above warranties do not cover system vandalism or theft.

Title to RPS Attributes: Funding from New York State's Renewable Portfolio Standard (RPS) contributed to develop the or wind generation system identified in this Agreement. Under the RPS program, the RPS Attributes are the environmental benefits associated with electricity that is generated from renewable sources such as wind or solar. These include but are not limited to any renewable energy credits or claims (RECs), green power attributes, "green tags," or tradeable renewable credits (TRCs) of any kind that may exist or be created under any market, program or system. The parties acknowledge that for the first three years of operation of the wind generation system funded under this program, NYSERDA will hold title to the RPS Attributes associated with the generation of electricity by the system described herein.

Data Monitoring: For a period of two years, the Installer ____ Customer ____ [Please designate and initial] must take monthly readings measuring the energy generation of the wind generation system.

Data Reporting: The Installer must submit the above energy generation data to NYSERDA two times per year for two year monitoring period.

Quality Control: For quality control purposes, Customer must provide NYSERDA with reasonable access to the wind generation system for inspection purposes. Final incentive payments may be contingent on NYSERDA inspecting an installed system.

Publicity and Site Events: Customers are required to collaborate with NYSERDA's Director of Communications should they prepare any press release or plan any news conference related to the wind generation system. NYSERDA is authorized to use photographs of the wind generation system in brochures, on its web site, and in other print materials.

PowerNaturally.org: Customer is encouraged to consult www.PowerNaturally.org for information about NYSERDA's programs and renewable energy. Customer is encouraged to consider estimates from three Eligible Installers before having a wind generation system installed.

Tax Incentives: If the Installer has provided information regarding the expected tax benefits (real property, federal or state tax incentives, or sales and use tax exemptions), as with any tax issue, Customer is encouraged to consult the Internal Revenue Service (*See*, www.irs.gov), the NYS Department of Taxation and Finance (*See* www.tax.state.ny.us) and with an accountant/tax

adviser for details on eligibility for the credit provided in the law).

Net Metering: If the Installer has provided information regarding the expected eligibility for net metering, the Customer is encouraged to consult with their local utility.

Cost Estimate/ Total System Price: The Customer has relied upon the cost estimate or price provided by the Installer in this Agreement to include any and all costs to install the system.

If the Installer seeks to recover additional costs from the Customer for this installation that is a material departure from the original price or cost estimate, Customer may terminate this Agreement without penalty and seek a full refund of any deposit paid to Contractor/ Installer or costs the Customer incurred under this Agreement less any reasonable site visit fees charged by the Installer.

Incentive Estimate: If Installer does not submit a completed incentive application to NYSERDA, or if the incentive application submitted by the Installer (a) is not approved by NYSERDA or (b) if NYSERDA approves a lower incentive, Customer may terminate this Agreement without penalty and seek a full refund of any deposit paid to Installer or costs he or she incurred under this Agreement.

Completion/Commissioning: Installer agrees to complete installation of the wind generation system and request all necessary inspections within 120 days of Installer's receipt of the first incentive payment from NYSERDA. Unless otherwise agreed upon in writing by NYSERDA and Installer, if the system is not installed within 120 days of Installer's receipt of the first incentive payment from NYSERDA, the Parties recognize that Installer will be required to return any and all incentive payments to NYSERDA.

Consumer Information: New York consumers have a variety of resources for information regarding home improvement contracting. Customers are encouraged to consult the New York State Office of the Attorney General web site for consumer information:
http://www.oag.state.ny.us/consumer/tips/home_improvements.html

The NYS Consumer Protection Board offers additional information with the following publications:

http://www.consumer.state.ny.us/pdf/home_improvements.pdf

<http://www.consumer.state.ny.us/pdf/homeimprovflyer.pdf>

Conflicting Terms. In the event of a conflict between the terms of the Agreement (including any and all attachments thereto and amendments thereof) and the terms of this Addendum, the terms of this Addendum shall control.

Disclaimer: The Customer understands that neither NYSERDA nor the State of New York: (1) endorse any Eligible Installer; or (2) guaranty, warranty, or in any way represent or assume

liability for any work proposed or carried out by an Eligible Installer. Additionally, NYSERDA is not responsible for assuring that the design, engineering and construction of the project or installation of any wind generation system is proper or complies with any particular laws, regulations, codes, licensing, certification and permit requirements, or industry standards. NYSERDA does not make any representations of any kind regarding the results to be achieved by the wind generation systems or the adequacy or safety of such measures.

Certification Statement: By signing, the Parties certify that they have read and understand the above information and requirements and agree to abide by them.

By signing below, the Customer certifies that he or she contributes to the Renewable Portfolio Standard (RPS) through a monthly electric utility bill. By signing below, the Installer certifies that he or she is an Eligible Installer and is in compliance with NYSERDA's Eligible Installer program.
